WHAT IS A COLD- PRESSED JUICE CLEANSE & WHY YOU SHOULD DO IT?

In The Raw Bali's Best Cold-Pressed Juice is the best possible way to extract juice from vegetables, roots and fruits without deteriorating and altering the valuable enzymes, vitamins and goodness they hold.

By drinking a specific selection of only these juices daily, you will give your digestive system a well needed rest and allows your body to heal & focus its energy on other areas.

OTHER KEY BENEFIT INCLUDE :

- Flushing the body of stored toxins and pollutants from stress, pollution, processed food, alcohol, etc.
- Provides essential vitamins, minerals and enzymes in their purest and most efficient form.
- Helps promote weight loss.
- Resets your digestive system and promotes a healthier attitude to eating habits. Also, resets your mind.
- Gain physical and mental energy.
- Alkalises the body (healthier than an acidic state that allows diseases to grow).
- Our juice fasts are custom made to be enjoyable and not tedious. We offer a wide selection of choices for all palates and portion sizes are just the right amount to please and not overwhelm! (litres and litres of the same watery juice becomes monotonous).
